

COMPRO SELECTED TRIANGRAPHICS'S TRIAN3D SOLUTION FOR TERRAIN DATABASE CREATION

May 13, 2024. Melbourne, FL USA – COMPRO Computer Services, Inc. and its partner for Brazil and Latin America, FSS Brasil, are pleased to announce their decision to adopt Trian3DBuilder, TrianGraphics's flagship product and world leading database generation system for modeling terrains with a high-level of automation.

“Historically, our Services Engineering Division has been delivering detailed 3D terrain databases with our Modular Universal Simulation Environment (MUSE Suite) as part of our turn-key solutions to customers around the world, based on the state-of-the-art tools available in the market. We identified with Trian3DBuilder the opportunity to provide our engineers with an excellent tool that will not only improve our productivity with its ease to use and high level of automation, but also will output simulation environments at much higher quality standards, making our technology look even better.” – Beck, Kevin – VP of COMPRO.

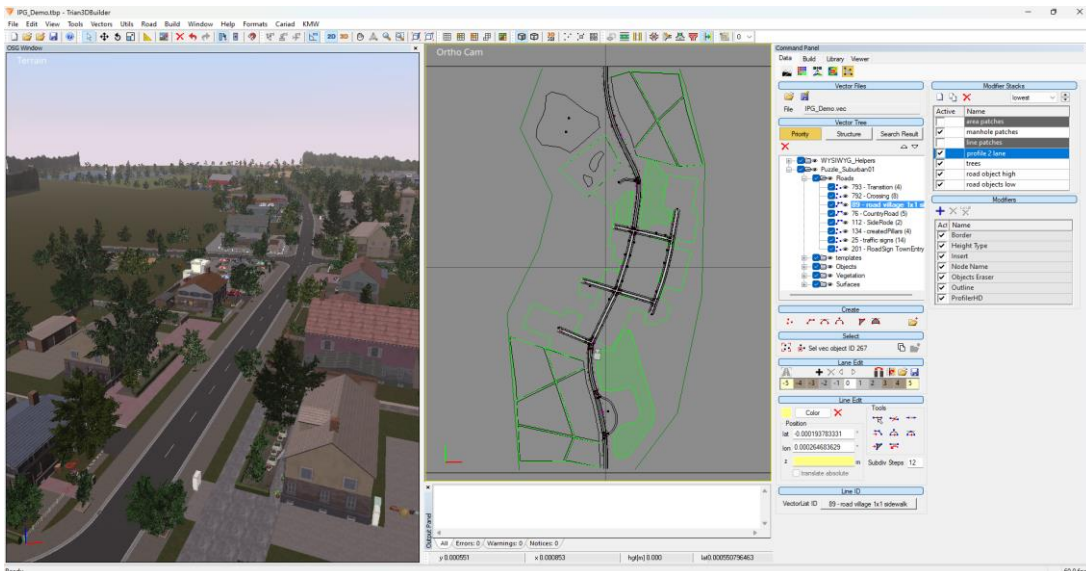

“At TrianGraphics, we are absolutely convinced that content is the foundation of any great simulation product. We are thrilled to be working with COMPRO to further improve their already excellent training solutions.” – Kussmaul, Stephan - CEO of TrianGraphics GmbH

COMPRO is an international supplier to the flight simulator, data acquisition, transportation and energy markets, to OEM and integrators (such as Boeing, Lockheed, EMBRAER, Thales, Pilatus, EADS, CAE, Rheinmetall among others) who serve those markets.

We develop Simulation Software including MUSE Suite - Modular Universal Simulation Environment, Radar Toolkit (RTK), legacy interfaces and Replacement Systems to SEL/Gould/ENCORE Real Time computing systems, and integrate COTS hardware and software that are demanded by today's most challenging real-time environments.

To date, COMPRO has achieved an installed base of over 10,000 systems, representing over 3,000 customers worldwide. These customers are served via our worldwide offices along with our corporate office strategically located in Central Florida.

TrianGraphics is headquartered in Berlin, Germany, and specializes in 3D content generation with a high level of automation. TrianGraphics is engaged in the defence, aerospace and automotive industries.
