FSS BRASIL AWARDED FULL FLIGHT SIMULATOR MAINTENANCE CONTRACT BY THE BRAZILIAN AIR FORCE

November 28, 2022. São José dos Campos, Brazil – FSS Brasil, a Brazilian partner of COMPRO Computer Services, Inc. for Brazil & the Latin America, signed today a new contract with CCA-SJ and CELOG (Centro de Computação Avançada and Centro Logístico da Aeronáutica – Advanced Computing Center and Air Force Logistics Center) of the Brazilian Air Force, to provide Contractor Logistics Support to its C-105 “Amazonas” (EADS CASA C-295) Full Flight simulator based in Manaus, Amazon State, for a year.

Under this contract, COMPRO and FSS Brasil are committed to maintaining high system performance and availability of the simulation system, including its complex IT structure and building facility, delivering specialized engineering services and logistical support to this prestigious customer, taking advantage of COMPRO’s network of simulation partners.

COMPRO is an international supplier to the flight simulator, data acquisition, transportation and energy markets, to OEM and integrators (such as Boeing, Lockheed, EMBRAER, Thales, EADS, etc.) who serve those markets.

We develop legacy interfaces and integrate COTS hardware and software that are demanded by today’s most challenging real-time environments.

To date, Compro has achieved an installed base of over 10,000 systems, representing over 3,000 customers worldwide. These customers are served via our world-wide offices along with our Corporate office strategically located in Central Florida.
