FOR IMMEDIATE RELEASE

October 01, 2021

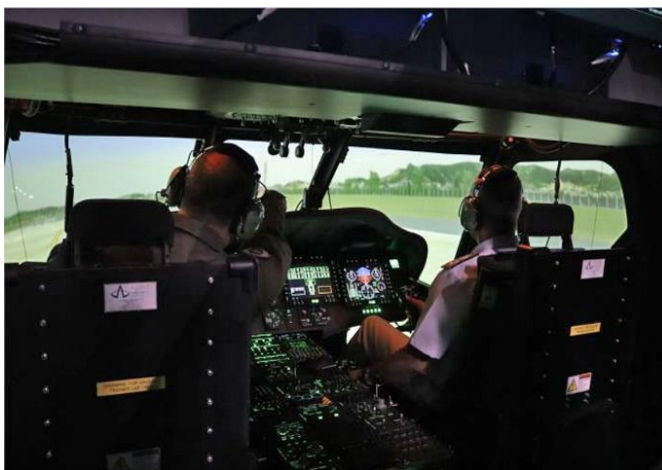

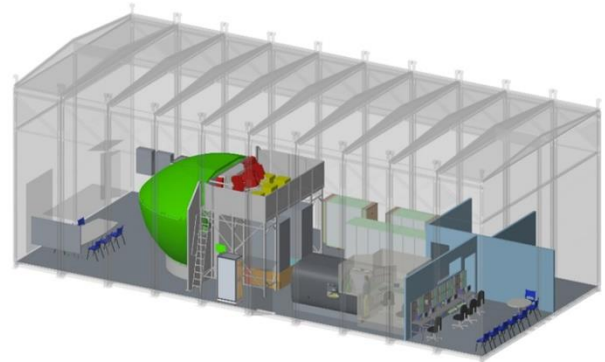

COMPRO'S CLS CONTRACT START DATE DEFINED FOR CAE S-70 (SH-16) SIMULATOR DELIVERED TO THE BRAZILIAN NAVY

October, 2021. Melbourne, FL – COMPRO Computer Services, Inc., was selected by CAE's Defense Unit in Tampa, FL, to provide Contractor Logistics Support (CLS) and continued maintenance to the S-70 / SH-16 Seahawk helicopter simulator installed by CAE at the São Pedro da Aldeia Naval Air Base, in Brazil.

This complex training system comprises an advanced FTD (Flight Training Device) for the aircraft operation training, and the Tactical Stations for Sonar and Sensors operation training.

Using our local partner FSS Brasil's infrastructure and human resources, COMPRO will provide specialized support to the simulators, all its IT infrastructure and full facility maintenance to the simulator shelter, including fire suppression system, electrical system, air conditioning and backup power generators.

Final delivery of this system will take place October 29, 2021, same date for COMPRO's CLS Contract POP start.

Founded in 1985, COMPRO is an international supplier to the flight simulator, data acquisition, transportation and energy markets, to OEM and integrators (such as Boeing, Lockheed, EMBRAER, Thales, EADS, Rheinmetall, SAAB, etc.) who serve those markets.

We develop legacy interfaces and integrate COTS hardware and software that are demanded by today's most challenging real-time environments.

To date, Compro has achieved an installed base of over 10,000 systems, representing over 3,000 customers worldwide. These customers are served via our world-wide offices along with our Corporate office strategically located in Central Florida.
